VOL. XIII.

JASPER, MISSOURI, THURSDAY, MAY 11, 1911.

NO. 37

This is the Season of the Cultivator

Corn coming up---get your Cultivator and get a good one, for this is going to be some corn year and no mistake. Now---there are Cultivators and Cultivators.

Some like this one and some like that one, and there is considerable difference in individual preferences. That's why we always keep SIX different cultivators, and there's not an idea in cultivator making that you'll not find represented in some one of them. They are the

No-Name, New Western, Golden Rule, balance frame Dandy, Dutch Uncle, Captain Kidd disc

Each one has its admirers, and you are sure to become converted to one or the other of the six. They're ALL good---believe us---but you're the doctor, and we'll sell you the one you want. Just come in and pick her out.

The wheat is coming along, with this fine weather, and you want to bear in mind the old reliable

DEERING BINDER

the king of the harvest. Better come in now and look one over.

Your cook will be "sore" pretty soon if you don't lay in some of this car of fine old "Turkey" flour we have just unloaded. And while you're at it, take home some "Mayflower" coffee and try it for breakfast. It will make you smile.

Whenever the hormal human being thinks of buggies he thinks of

THE HENNEY BUGGY

so there's no need to mention anything about them except that we handle them.

Webb Brothers Mercantile Company

COMMENCEMENT WEEK IS AT HAND

Senior Play "Untangling Tony,"
Opens Commencement Program Saturday Night.

The closing exercises of the school year begin next Saturday night, when the graduating class presents the two-act farce-comedy, "Untangling Tony," a play designed for the sole and simple purpose of making people laugh. It is guaranteed to accomplish the desired result, and is furthermore expected to make all high school plays of the past seem slow in comparison. The Seniors have spared no pains to make their play worth seeing, and it will probably be worth seeing.

Sunday morning at the M. E. church, Dr. McCaughtry, pastor of the Presbyterian church at Carthage, will deliver the baccalaureate sermon. Dr. McCaughtry is a speaker of well known powers, and the graduates feel that they are very lucky indeed to secure him. There will be a special program of music.

Thursday night, May 18, is com-

mencement night proper, when the graduates will receive their diplomas, at the opera house. The orator for this occasion is Dr. Blair of Carthage, whose weekly lectures at the M. E. church in this city are attracting so general attention. The usual class features will also be on the program.

Now They Eat Bananas.

Over in Dade county a large proportion of the natives are subsisting temporarily on bananas. A banana train on the Frisco went into the ditch last Thursday, just east of South Greenfield, and several carloads of the fruit were scattered over the right-of-way. So much of it was damaged that the railroad decided not to try to save any of it, and the whole countryside, for miles around, flocked to the scene and loaded up enough bananas to last them the rest of their lives. It is said that when everybody had all they cared to take home there was still enough left on the right-of-way to feed an army or two. Bananas will be a drug on the market over in Dade, for a few weeks, at least.

LECTURE COURSE FOR NEXT WINTER CHOSEN.

Course Includes Quartet, Cartoonist, Lecturer, Concert Company and Home Talent Number.

Next year's lyceum course has already been determined on and contracted for, and as was predicted by the News recently, a slightly higher priced course was picked than closed a few weeks ago.

There are four numbers, as before, all of recognized class. The first will be the Fraternity glee club, a male quartet that has made a pronounced hit all along the circuit for two seasons past. They are higher priced than the Chicago quartet that sang here in January, and are credited with being a much better aggregation.

The second number will be the Lyric entertainers, a concert company. Third is Dr. Robertson, popular lecturer, and the series closes with perhaps the best number of them all---Mrs. M. B. Fish the cartoonist. Mrs. Fish holds the unique record of being requested for return dates in 75 out of 150 engagements, and was called to several towns three and four times in succession.

There will, as before, be a home talent number. The dates for the different entertainments will be announced later. The price for season tickets will probably be the same as before.

Sheldon Editor to Jail?

A Sheldon editor may have to go to jail for libel. He is Frank Hoskins, editor and proprietor of the Sheldon Herald, a publication that was started about a year ago. Hoskins came to Sheldon from St. James, where he had been running a paper. He left a few days ago for his former home, as he said, to take care of a libel suit. His trial came off Tuesday and he was fined a hundred dollars and given five months in jail.

He was prosecuted for libeling the superintendent of the St. James soldier's home, whom he assailed violently in the paper that he owned at that place---Lamar Democrat.

Miss Hazel Cherry of Carthage visited last Saturday and Sunday with her grandparents, Mr. and Mrs. I. Y. Byers, and other relatives.

Compliments Jasper Stockman.

J. F. Gulick of Jasper, Mo., is an admirer of fine live stock. He has raised a great deal of good stock himself, and whenever there is a sale of pure blood stock anywhere, he can be found there. "I was greatly pleased," he said "when I came to the Hereford cattle sale at Kansas City last Friday to see the cattle sell so well. All this is an indication of a growing interest in stock raising. I do not recall a time when so many farmers were buying this very kind of stock. It is not cattle alone, but hogs as well. All over my neighborhood we can find registered breeding hogs of various breeds. This is telling on the great improvement that is going on in the quality of the hogs. Farmers are also breeding up on cattle. Down in the Ozarks to the south of me can be found registered bulls and a better quality of cattle. They have found that the good kind is the only kind to have."---Drover's Telegram.

Piano Tuning.

Piano tuning, action regulating and repairing. Satisfaction guaranteed. 2-2 ROY WELLS.

Phone No. 7 for canned mushroom rooms.

TAKES COMPLETE REST FROM BUSINESS.

S. D. Chandler Leaves for Long Sojourn in Eastern States.

S. D. Chandler left last Sunday on a trip that will absent him from Jasper all summer and possibly all winter. His health necessitated a complete rest, and his trip will last until he thinks he is sufficiently improved physically to return to his business here. He went first to Chicago, and will proceed from there, after a few days, to Bealeton, Va., where his brother, Andrew, lives. This brother was located by Mr. Chandler four years ago after being out of touch with the family for over forty years, for at least half of which time it was supposed that he was dead, and his discovery by the Jasper man was the occasion of a joyous reunion of the surviving members of the family.

Mr. Chandler will tarry in the east with this brother and other relatives until cold weather comes on, when he will either return to Jasper or go to some southern point to spend the winter. He may choose California, in which case he will stop off here a few days en route.

Produce same as cash at J. Ross Dodd's.

The First Nation'l Bank

Organized but nine years ago, developed and conducted on the principle of conservative banking along conservative lines, the First National Bank has preserved the integrity of its individuality intact and on this basis has gained a little each day in strength, in scope, and in the confidence of the public.

Governed by the same principle, and entertaining a reciprocal confidence in a public which recognizes the right relationship between service and recompense, this Bank expects to continue to grow both in its capacity and its opportunity to serve, and to that end invites the patronage to which it believes it has improved itself entitled.

Our Statement issued on the 7th of this month is the largest in the history of banking in the city of Jasper.
